I would appreciate it if you would clarify how the Department should indicate the facility address where the waste was removed on the manifests. Should the actual facility address be used with the one retained EPA identification number or should all manifests list the facility address at 16-16 Hazen Street, E. Elmhurst, NY? This is the address that is currently used for

the retained EPA identification number. Please let me know if you need any additional information. I can be reached at 718-546-3090.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in cursive script, reading "Patricia Feeney". The signature is written in dark ink and has a long, sweeping horizontal line extending to the right from the end of the name.

To Whom It May Concern:

This is the second request that I am sending to the Environmental Protection Agency ("EPA") on behalf of the New York City Department of Correction ("DOC"). The New York City Department of Correction ("DOC") is correctly using one Environmental Protection Agency ("EPA") identification number (# NYD981487721) for all of the waste removal activities that occur at the facilities on Riker's Island, at the direction of the New York State Department of Environmental Conservation, Region II office in Long Island City, New York. The above referenced EPA ID number was formerly used only for the DOC Support Services Division including the Key-Span Powerhouse all on Riker's Island; however, currently this number is being used for all of the Riker's Island facilities. Therefore,
